DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: There is prior art regarding integrated circuits having a top metal layer having a first and a second metal bar, and a first, second and reference bump on the bars. See, for example, U56323559 to Chan et al. disclosing an integrated circuit chip (See Fig. 10) having a top metal layer having a first metal bar 282 and a second metal bar 280, the integrated circuit comprising a first bump (on bump pads) disposed on the first metal bar; a second bump (next to the first bump) on the first metal bar; and a reference bump (across both first and second bumps) on the second metal bar.

However, see that the Application as amended specifically recites that the first bump, the second bump, and the reference bump are positioned such that an angle between specific lines taken between the bumps is substantially equal to 150 degrees. These limitations specifically recited as drafted in the claims when combined with all other specific limitations in the claims, make up for an invention that is neither obvious nor anticipated by the prior art of record. Hence the Notice of Allowability found herein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lourdes (Elle) Cruz whose telephone number is (571) 272-1928. The examiner can normally be reached on M-F 10-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kammand Cuneo can be reached on (571) 272-1957. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
